***Examiner's Comment***

1. Figures 1A-6 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Allowable Subject Matter***

2. Claims 18-27 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Applicant's claims 18-27 are allowable over the references of record because none of these references disclose or can be combined to yield the claimed active matrix organic EL display device including a pixel that has an organic EL element and a polysilicon TFT for controlling the organic EL element which are disposed adjacent to each other, the organic EL element has a cathode electrode, the position of which is opposite the side where the polysilicon TFT is connected, provided at least in a region excluding a region over the polysilicon TFT, in combination with the remaining claimed limitations of claim 18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Fujimoto et al. (PN 6,690,034), Miyazawa (PN 7,211,838), and Yamazaki et al. (PN 7,355,205) discloses the formation of electroluminescent device.
